Our goal is to create a strong figure skating presence at The Pond. There are many ways to do this. It is sometimes difficult to navigate and know what your options are.

There are only 2 questions to answer:

1. What skill and interest level does your skater have?
2. And what day works best for you and your skater?

"Remember your skater will only be as successful as your game plan." So, make it convenient, allow for the frequency and consistency your child needs for success!"
